

## Focus Areas for the Associate in Science Degrees

### Description

Students have two options in earning an AA or AS degree. They may decide on a degree in general pre-baccalaureate studies, which allows a wide choice of courses and an opportunity to explore many subject areas, or they may decide on a Focus Area, which allows them to explore one field of study in more depth. A Focus Area is not a major or a minor but is a concentration of related courses. Focus Area requirements are 12-21 hours with at least one 200-level course or one course with appropriate prerequisites. If students plan to transfer after earning their AA or AS degrees, they may fulfill a number of their pre-major requirements by choosing a Focus Area. Obtaining a Focus Area, however, does not mean that a student has fulfilled all pre-major requirements for a four-year degree at the University of Kentucky or elsewhere.
