CAREER COUNSELING RESOURCES

COMPUTERIZED PROGRAMS

DISCOVER can help you learn more about yourself and find the occupations that may be right for you. Discover will provide: (1) inventories to measure your interests, abilities, experience, and values; (2) ways to develop a list of careers that you enjoy; (3) methods for identifying majors related to careers; (4) information about 497 careers to explore; (5) searches to identify schools from a file of over 7000; (6) financial aid information; and (7) steps to getting a job.

MSPI is designed to help you identify academic courses, majors and career orientations based upon your values and your preferred style of interacting with the environment.

KENTUCKY'S CAREER INFORMATION SYSTEM provides information on career choices, educational opportunities, occupational outlooks, wages and financial aid.

RED HOT CAREER GAME is used in conjunction with the Career Game (see below) to assist you in making wise course selections related to career goals.

FUND RAISER assists you with (1) finding out how much college costs; (2) determining which colleges are affordable; and (3) looking for scholarships and loans.

HAND SCORED ASSESSMENTS

SELF DIRECTED SEARCH is an educational and vocational planning guide that explores occupations based on interest patterns. It can assist you in narrowing down your choices.

CAREER EXPLORATION INVENTORY (CEI) is designed to help you explore and plan a career, leisure activities and educational goals.

CAREER GAME is a fun self-evaluation guide that will help you start thinking about your values, interests, feelings, and abilities and how they impact your career decisions.

MYERS-BRIGGS TYPE INDICATOR helps you develop career goals by identifying your unique strengths.
